| <b>Category:</b>                                                                                                                                                                         |             | <b>Estimated time:</b> | 0.00 hour  |
| <b>Target version:</b>                                                                                                                                                                   |             | <b>Spent time:</b>     | 6.00 hours |
| <b>Description</b>                                                                                                                                                                       |             |                        |            |
| If a user has made a submission as a PROVISIONAL (not final copy)<br>CAA Admin approves as PROVISIONAL                                                                                   |             |                        |            |
| However, the user telephones Briony to tell her it was actually a FINAL submission.<br>We need to be able to change the status of the submission in the dashboard & resend a new letter. |             |                        |            |
| 1) admin can edit the submission and change status from not final copy to final copy - working ok (tick!)                                                                                |             |                        |            |
| 2) choose a different template and resend                                                                                                                                                |             |                        |            |
| 3) update the status of the submission in db                                                                                                                                             |             |                        |            |

#### History

##### #1 - 02/25/2020 10:53 AM - Newton Duarte

This PR implements some a new features and improvements:

1 - Issue a Final Approval. Now, CAA users can Issue a Final Issue for a Provisional Approval previous sent. When a user creates a Provisional Submission, the CAA staff now will be able to generate a Final approval (if they think everything is correct), after a previous Provisional Letter approval.

2 - Approval Letter's Sequence Code.

Provisional Approval: PA-DDMMYYYY-99999

Final Approval: FA-DDMMYYYY-99999

Rejected: Rejected-DDMMYYYY-99999

3 - Pagination on Users History of Submissions

4 - Fixing minors bugs
