| <b>Description</b>                                                                                                                                                                                                                                                                                                                                                      |             |                        |            |
| The native ad placement that appears on the Event Homepage + Event News landing page shows on desktop ok.<br>On some mobiles it does show (iphone 6s & Samsung A8)<br>On some mobiles it does not show; Samsung A5 (2017) - chrome & samsung internet, Samsung A7.<br>There is a little gap though - not the full height - where there should be something, SS attached |             |                        |            |

### History

#### #1 - 06/23/2020 07:37 PM - Newton Duarte

- Status changed from New to Feedback
- Assignee set to David Bryan

I'll try to simulate it and see what we can do.

#### #2 - 06/29/2020 02:31 PM - David Bryan

- Status changed from Feedback to Closed

looks fixed now. closing
