Target version:		Spent time:	0.20 hour
Description Calendar date selector - You pick a date in the future, but the parameter doesnt "pass" into the query. It shows results from todays date only. TEST: Picked 30/06/2020 Url returned: https://entertainment.ie/events/listing/drive-in/dublin/all/?date= Should be something like https://entertainment.ie/events/listing/drive-in/dublin/all/?date=30-06-2020			

History
