Remove Brid TV playlist custom field - not needed?
Missing Actors
Missing Directors
Missing Genres
Missing Subject Matter

Above here, all done.

Let's talk about this one: Quote missing? (new CMS , so prob not needed?)

[Newton Duarte](#)

Bug in Movie Films - when you choose more than 1 genre, you get Update Failed when updating the article.
tested multiple selections in Subject Matter, that is ok.
Looks to be just Genre, multiple selections.

Similarly, when you enter more than 1 actor and more than 1 director - same update failed

So, added multiple Genres and work fine. As as said before, this happens when one taxonomy is duplicated. We need to clean it up.

For instance, michael-b-jordan. It's duplicated causing an error. When you select a tag, genre, author, etc that is not duplicated, no error will show up. Check all images attached.
