Description Competitions all seem ok. 1 issue though Stage 1: add a competition article - OK Stage 2: Add comp article ID to Competition Manager - start and end date. When done & saved, competition doesnt seem to save. NB Newton thought it was a limit on the number of competitions allowed.

I remember what is happening :-)

This page use to load all competitions, causing a huge delay to load all page. David asked me to update it at some point, so show the last 10 competitions. So, I increased the query from 10 to 15 to test. You can check on dev.
