Description			
I changed the category in CMS Netflix News to On Demand News, with slug etc changed also.			
The site looks to be ok (no crashes)			
The following bugs are noticed:			
On Demand (TV) landing page does not show On Demand News (below On Demand Highlights) https://www-dev.entertainment.ie/tv/on-demand/			
Any On Demand News article on the homepage, when clicked, goes to the incorrect URL: https://www-dev.entertainment.ie/on-demand-news/a-new-on-demand-news-article-473773/ It should go to https://www-dev.entertainment.ie/tv/on-demand-news/a-new-on-demand-news-article-473773/			
Hence, the breadcrumb is also incorrect, should be: Home - TV - On Demand - Article Title			
NOTE FOR LIVE - changes made here need to applied to the Live CMS also, when CMS goes live.
